History

Tvrtka ELTOR osnovana je davne 1976. godine, a osnovnu djelatnost tvrtke činila je proizvodnja toroidnih transformatora. Nakon niza godina konstantnog i kontinuiranog razvoja, danas tvrtka ELTOR predstavlja jednog od renomiranih i svjetski poznatih proizvođača rasvjetne opreme.

ELTOR d.o.o. Ušao je u segment brodske rasvjete i posjeduje kompletne antivibracijske, požarne i elektro ateste te smo kao takvi ušli u brodski registar 2009. godine. Tvrtka koja nas je pratila je Bureau Veritas.

ELTOR COMPANY was founded in 1976. The core business consisted of the production of toroidal transformers. After lots of years of continuous development, the company today represents a renowned and recognized manufacturer of electrical equipment.

In the year of 2009, the company was registered in the shipping register and owns the complete antivibrating, fire and electronic certificates in the segment. The regulating partner was Bureau Veritas

osnovan ELTOR kao obrtničko poduzeće	1976.	<i>founded ELTOR as a craft association</i>
Zbog novog zakona, tvrtka postaje d.o.o	1990.	<i>Due to a new law, ELTOR becomes a company</i>
Povećanjem proizvodnje, otvara se novi, moderni proizvodni pogon	2003.	<i>Thanks to an increased productivity a new, modern manufacturing facility is open</i>
Zbog povećane potražnje za ELTORovim proizvodima, tvrtka proširuje i postrojenje	2008.	<i>Due to an increased demand for ELTOR products, the facility is expanded</i>
Uvođenje certifikata ISO 9001:2008 i ulazak ELTOR-a u brodski registar	2009.	<i>The introduction of the ISO 9001: 2008 and ELTOR's entry into ship register</i>
Dizajnirana nova serija proizvoda i implementacija LED tehnologije	2010.	<i>New line of luminaires designed and implementation of LED technology</i>
Dizajnirane nove trimless svjetiljke u klasičnoj i LED verziji	2011.	<i>New Trimless luminaires designed in classic and LED variant</i>
Nova serija hotelske rasvjete	2012.	<i>New line of luminaires for hospitality industry</i>
Ulazak na nova, internacionalna tržišta - Dubai, Rusija, Izrael	2013.	<i>Entry to new, international markets - Dubai, Russia, Israel</i>
Nova napredna svjetiljka "EDGE" je razvijena	2015.	<i>New advanced luminaire "EDGE" is produced</i>

Led tehnologija

Led technology

Od ideje do svjetleće stvarnosti...

LED je akronim od LIGHT EMITTING DIODE, komponente koja emitira monokromatsko svjetlo kao posljedicu protoka električne struje.

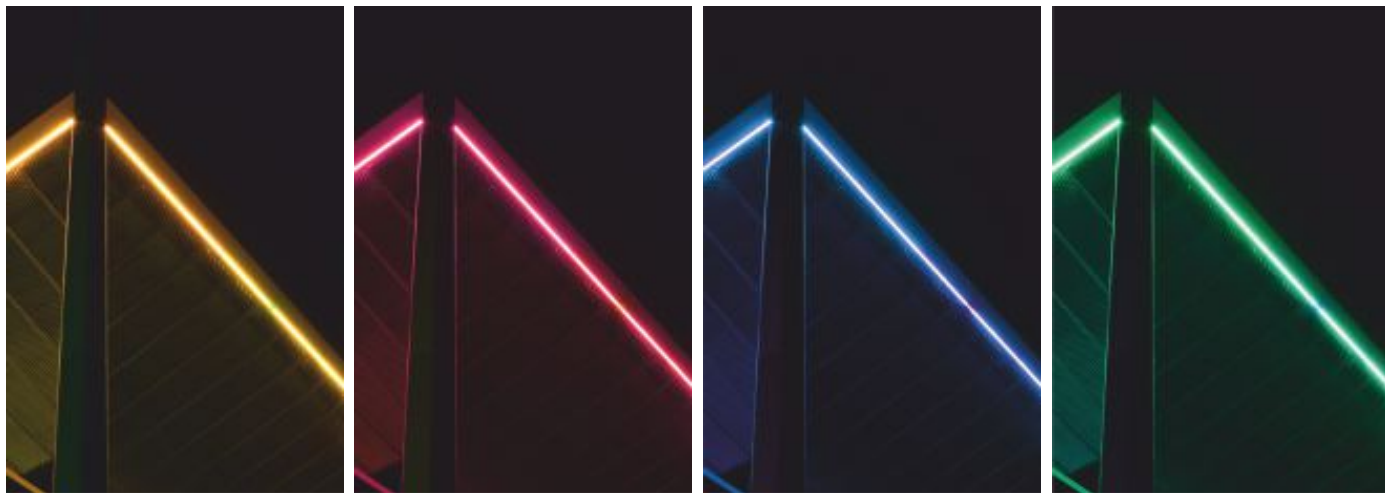

LED predstavljaju novi alat u radu dizajnera rasvjete i omogućuju stvaranje novih maštovitih proizvoda sa iznenađujućim efektima, koji su nekoć bili tehnički neizvedivi.

Po prvi puta napredak LED tehnologije omogućio je postizanje visoke kvalitete boje kao i neutralno bijelog osvjetljenja, kao za unutarnju tako i za vanjsku primjenu.

Sedmero-bojni LED i bijeli LED visoke snage postali su dostupni u posljednjih nekoliko godina, napredak je također postignut u području plastičnih i silikonskih leća koje omogućuju dugotrajni životni vijek LED-a s visokim očuvanjem razine svjetlosnog toka.

Tijekom prošle godine na tržištu se pojavljuju i visoko-kvalitetne LED diode sa toplo bijelim osvjetljenjem, temperaturom osvjetljenja 3200K i odličnim indeksom uzvrata boje RA 90. Svjetlost, ujednačenost boje i kromatsko područje LED-a su znatno poboljšani, u tolikoj razini da su danas LED moduli sve više korišteni za osvjetljenje u klasičnim interijerima kao i mnogim drugim područjima.

RGB modul
RGB module

From idea to lighting reality...

LED stands for light emitting diode, that emits monochromatic light as a result of the flow of electricity.

LEDs represent a new tool in the work of lighting designers and allow the creation of imaginative new products with amazing effects, which were once technically unfeasible. For the first time the progress of LED technology has made it possible to achieve high quality color and a neutral white light, for indoor and outdoor use.

Seven-color LED and high power white LEDs have become available in recent years, progress was also achieved in the field of plastic and silicone cover-lenses, which allow long lifetime of LEDs with a high conservation level of intensity.

Over the last year on the market appear to high-quality LEDs with a warm white light, 3200K temperature and excellent color index retribution RA 90, color uniformity and chromatic area LED's are much improved, to such a degree that today the LED modules are increasingly used to illuminate the classical interiors as well as many other areas.

Svjetlo koje motivira

Light that motivates

Prava svjetlost u pravom trenutku

Svjetlost je osnovna komponenta u planiranju interijera a razina ekonomičnosti i ugodnosti je jedan od najbitnijih elemenata kako za osoblje ili djelatnike tako i za goste odnosno klijente vaših interijera.

Prava rasvjeta omogućava optimalne vizualne uvjete i stvara efikasan i motivirajući ambijent dok istovremenu atraktivno djeluje na izgled samog prostora.

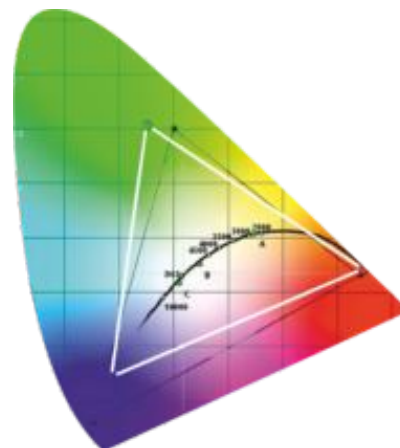

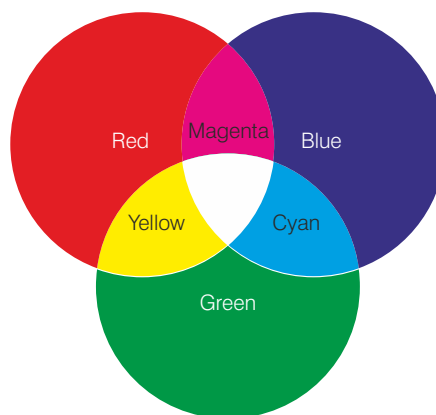

Individualni prostori interijera mogu biti zasebno osmišljeni u smislu svjetlosnog dizajna te time stvarati atmosferu koja je potrebna odnosno poželjna u pojedinim prostorima.

The right light in the right moment

Lighting is an integral component when planning interior and levels of economy and comfort are some of the most important factors both for the employers and customers of your interiors.

The right light assures optimal visual conditions, creates an efficient and motivating work atmosphere and also serves as an attractive element of design.

Optimal ergonomic and economic lighting solutions can be flexibly modified according to individual work areas and requirements.

Temperatura svjetlosti (K) Color temperature (K)	2700K-3000K	3500K-4100K	5500K-6500K
Boja svjetlosti <i>Light color</i>	Topla / mekano bijela <i>Warm/soft white</i>	Hladna, blještavo bijela <i>Cool, bright white</i>	Dnevna svjetlost <i>Daylight</i>
Atmosfera <i>Mood created</i>	Ugodna, opuštajuća <i>Relaxing, comfortable</i>	Čista, živahna <i>Clean, lively</i>	Osvježavajuća, energična <i>Refreshing, energetic</i>
Upotreba <i>Uses</i>	Dnevni boravci, sobe <i>Living rooms, bedroom</i>	Kuhinje, uredi <i>Kitchen, office</i>	Čitanje i zadaci <i>Reading and tasks</i>

Atmosfera na dodir prsta

Atmosphere at the touch of your finger

Osvjetljavanje prostora, osvjetljavanje života

Dobra rasvjeta je potrebna za dobar rad, a koncentracija se postiže i drži lakoćom u dobrim svjetlosnim uvjetima. Također, ugodna rasvjeta omogućuje bolju motivaciju i osjećaj zadovoljstva.

Efektna i pametna rasvjeta daje veliki doprinos u svim prostorima. Kombinacija hladnije svjetlosti i indirektna rasvjeta izrazito povoljno djeluje na efekt zadovoljstva u interijerima te samim time smanjuje osjećaj umora.

Dinamičko osvjetljenje sa stupnjevima rasvijete te sensorima pokreta i danjeg svijetla omogućuje klijentima da koriste svjetlost kako bi poboljšali radnu okolinu te uštedjeli na električnoj energiji.

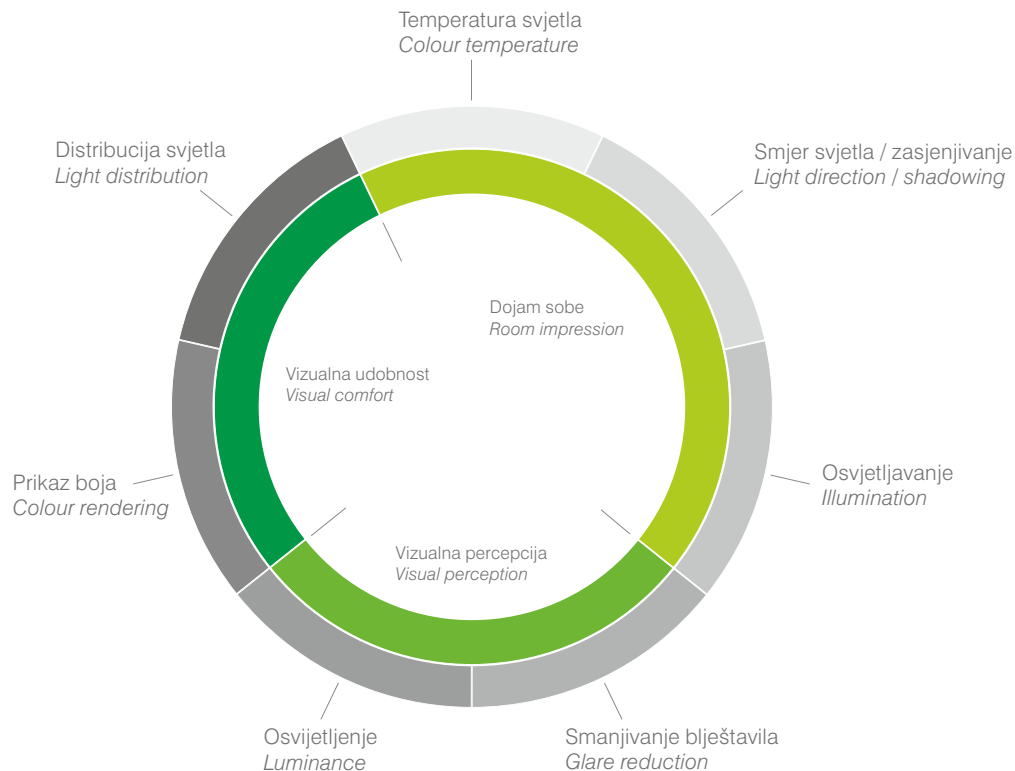

illuminating space, illuminating life

Good light is needed for good work, and concentration becomes easier with good visual conditions. A pleasant light atmosphere also makes sure of more well-being and motivation.

Biologically effective light makes a valuable contribution in such situations, meaning on the one hand light with higher blue components/colour temperatures and on the other, indirect light distribution.

Dynamic light with levels of brightness and light colours modified according to the course of the day support the natural biological rhythm, thus in turn increasing well-being and performance capability.

Dimenzije kvalitete rasvijete Dimensions of light quality

Učinkovitost i ušteda

Efficiency and energy saving

Prava rasvjeta ne mora biti skupa

Energetski učinkovite tehnologije i inteligentna rasvjetna tijela smanjuju potrošnju energije bez smanjivanja kvalitete svijetla, a istovremeno se smanjuje operativni trošak i poboljšava okolinu.

To je jedan od glavnih razloga radi kojeg se preporučuje obnova rasvjete u većini interijera, da li zbog uštede energije ili zbog usklađivanja s propisima.

Preporučamo LED i fluo cijevi, ovisno o zahtjevima projekta. Koje su želje i/ili zahtjevi kupaca?

Da li su planiranja na kratkotrajnoj ili dugotrajnoj bazi? Investicijski troškovi i ušteda u potrošnji energije se na kraju uspoređuju.

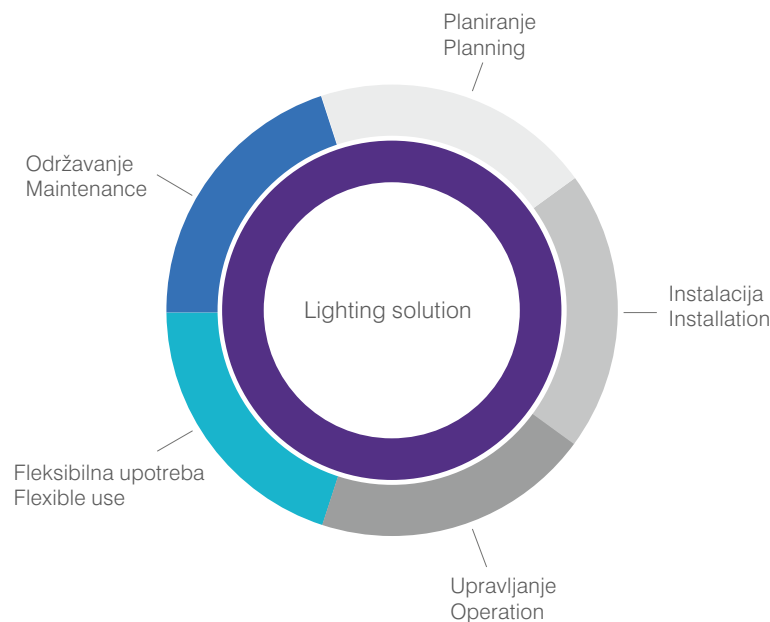

The right lighting doesn't have to be expensive

Energy-optimised technologies and intelligent Lighting Tools reduce energy consumption without the need to compromise on light quality, relieve the environment and reduce operating costs.

It is mainly for this reason that the refurbishment of lighting in many interiors is highly recommended, whether to cut electricity and maintenance costs or to comply with legislation.

We fundamentally recommend LEDs and T16 fluorescent lamps depending on the specific project. What are customer desires and requirements? Is planning for the short-term or long-term? Investment costs and saved energy costs are ultimately compared.

Antigone

Dekoratívna svjetiljka kružnog geometrijskog oblika te inovativnog dizajna, linija svjetiljaka Antigone pogodna je za osvjetljavanje različitih dekorativnih prostora. Opalni polikarbonatni difuzor homogenog efekta oplemenjuje svjetiljku svojim visokim stupnjem uniformiranosti svjetlosnog toka tehnologije "crystal ice". Različitih promjera od 350 mm do 1200 mm pružaju mogućnost visokoga stupnja slobode dizajniranja rasvjete stapajući se s prostorom te postajući njegov sastavni dio.

Decorative and innovative lamp with circular geometric shape, Antigone lamp lines are optimal for illuminating a variety of decorative spaces.

Opal polycarbonate diffuser with soft effect enriches the lamp with its uniform luminous flux made possible by "crystal ice" technology.

Dimensions from 350 mm to 1200 mm offer the freedom of light design and allow the lamps to seamlessly blend into any space and become its essential part.

NAMJENA / USAGE

Antigone

Nadgradna/zidna LED svjetiljka / Surface/wall mounted LED lamp

BIJELA/WHITE (W)

SIVA/GREY (G)

CRNA/BLACK (B)

Kućište: ekstrudirani aluminij obojan termoeпокsidnom bojom

Standardna fino strukturna boja: bijela, siva, crna

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: LED generacije 3, self-cooling, MacAdam 3 CRI>80; LED min 60.000h L80F50 na $T_p=65^{\circ}\text{C}$; EEI A++

Diffuzor: protublješćeci opalni homogenog efekta tehnologije "Crystal Ice"

Montaža: pomoću vijaka na strop/zid

Spajanje: skidanjem obruča dostupne su priključne stezaljke i ostale električne komponente

Prema zahtjevu: panik, regulacijska jedinica DALI, DIM, RGB (vidi upute za naručivanje str. 180)

Housing: extruded aluminium covered with thermal epoxy colour

Standard finely-textured color: white, gray, black

Power: 230V/50Hz

Supply unit: built in the housing

Light source: LED generation 3, self-cooling; MacAdam 3 CRI>80; LED min 60.000h L80F50 on $T_p=65^{\circ}\text{C}$. EEI A++

Diffuser: anti-glare opal with homogenous effect with "Crystal Ice" technology

Mounting: with screws to the ceiling/wall

Connecting: through removing the rim, connection clamps and all other electronic components are available

On request: emergency light, regulation unit DALI, DIM, RGB (see ordering instructions on pg. 180)

Prema zahtjevu:
On request:

Električne komponente: ugrađene u kućište

Izvor svjetla: fluo T5 i Dulux L cijevi

Difuzor: protubljesteći opalni polikarbonat homogenog efekta tehnologije "Crystal Ice"

Montaža: pomoću visilica s auto blok sustavom, max L=1500mm (u kompletu)

Spajanje: skidanjem obruča dostupne su priključne stezaljke i ostale električne komponente

Prema zahtjevu: panik, regulacijska jedinica DALI, DIM, direktno-indirektna rasvjeta (vidi upute za naručivanje str. 180)

Housing: extruded aluminium covered with thermal epoxy colour

Standard finely-textured color: white, gray, black

Power: 230V/50Hz

Supply unit: built in the housing

Light source: fluo T5 and Dulux L bulbs

Diffuser: anti-glare opal with homogenous polycarbonate effect with "Crystal Ice" technology

Mounting: hanging on steel suspension with auto block system, max L=1500mm (set included)

Connecting: through removing the rim, connection clamps and all other electronic components are available

On request: emergency light, regulation unit DALI, DIM, direct-indirect light (see ordering instructions on pg. 180)

Prema zahtjevu: EM 1h, EM 3h, DALI, DIM, yellow light source

Sfera

Sfera dekorativna linija svjetiljaka sastoji se od niza visećih lampi jednostavnog dizajna predivnih linija osmišljenih kako bi naglašavali arhitektonske karakteristike prostora. Tijelo svjetiljke je od aluminija visoke čvrstoće, obojanim termoepoksidnom finostrukturnom bojom koja svojom teksturom obogaćuje svjetiljku a samim time i okolinu.

Sfera decorative line consists of a series of suspended luminaires with minimalistic and beautiful lines designed to accentuate architectural characteristics of space. The luminaire body is made from aluminium of high durability which is painted with thermal-epoxy finely structured paint which with its texture enriches the luminaire and therefore the environment .

New Sun DECO

Ukrasna kupola New Sun deco je lampa dekorativnog tipa a industrijskih korijena. Odasijač od sirovog anodiziranog aluminijskog profila spojen je sa ukrasnim rebrastim profilom te zajedno stvaraju impozantnu i prekrasnu cijelinu. Lampa dolazi u standardnoj E27 te LED varijanti a svjetlost pri reflektiranju od odasijača stvara ugodnu i toplu atmosferu.

Ornamental dome New Sun deco is a decorative luminaire of industrial heritage.

Reflector made from raw anodized aluminium profile is paired with anodized aluminium decorative ribs, which together create an impressive and beautiful product.

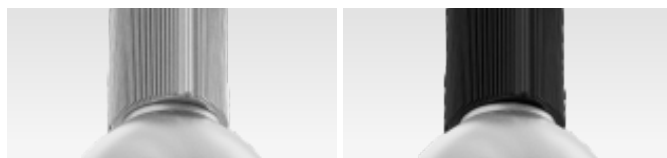

Luminaire comes in standard E27 and LED variant and the lighting emitted from the reflector creates cosy and warm atmosphere.

NAMJENA / USAGE

Icon

Svjetiljka iz aluminija minimalističkog dizajna, elegantnih i modernih linija. Pogodne za montažu u stambenim, poslovnim, hotelskim prostorima, idealne za naglašavanje arhitektonskih značajki unutrašnjih prostora te svojom uskom distribucijom svjetlosnog snopa usmjeruju pažnju na najznačajnije karakteristike te daju puninu i voluminoznost. Aluminijsko tijelo svjetiljke omogućuje visoku trajnost i kvalitetu proizvoda a izbor finostrukturnih boja omogućuje uklapanje u svaki interijer.

Minimalistic aluminium luminaire with elegant and modern design. Suitable for use in housing, offices and tourism, ideal for accentuating architectural features of interior spaces and to focus attention with its narrow beam light emission, thus giving richness and voluminosity. Aluminium body of the luminaire offers high durability and quality of the product and the finely-structured color selection enables integration into any interior space.

Plat

Dizajn svjetiljke PLAT inspiriran je geometrijskim i oku ugodnim oblicima.

Kućište od ekstrudiranog aluminijskog profila je istovremeno elegantno i čvrsto a difuzor izrađen od opalnog polikarbonata omekšava svjetlosni snop.

Minimalistički i nenametljiv dizajn savršen je za uklapanje u moderno dizajnirane interijere, trgovine, stambene prostore i hotelijerske komplekse.

The design of PLAT luminaire is inspired with simple geometric and eye pleasing shapes.

Housing made from extruded aluminium profile is at the same time elegant and sturdy and the diffuser is made from opal polycarbonate that softens the light beam.

With a minimalistic and unobtrusive design it fits perfectly in modern interiors, shops, living spaces and hotel complexes.

Aura

Dekoratívne stropne svjetiljke linija Aura nastaju iz ručno puhanog troslojnog "triplex opal" Murano stakla kako bi se postigla visoka trajnost i kvaliteta difuzora te homogeni efekt svjetlosti, koji omogućuje visok stupanj komfora i oku ugodno osvjetljenje a zaobljeni oblik stakla uklapa se u prostore boravka, pružajući nježne i fluidne linije, te estetski oplemenjuje prostor i podiže ga na višu razinu.

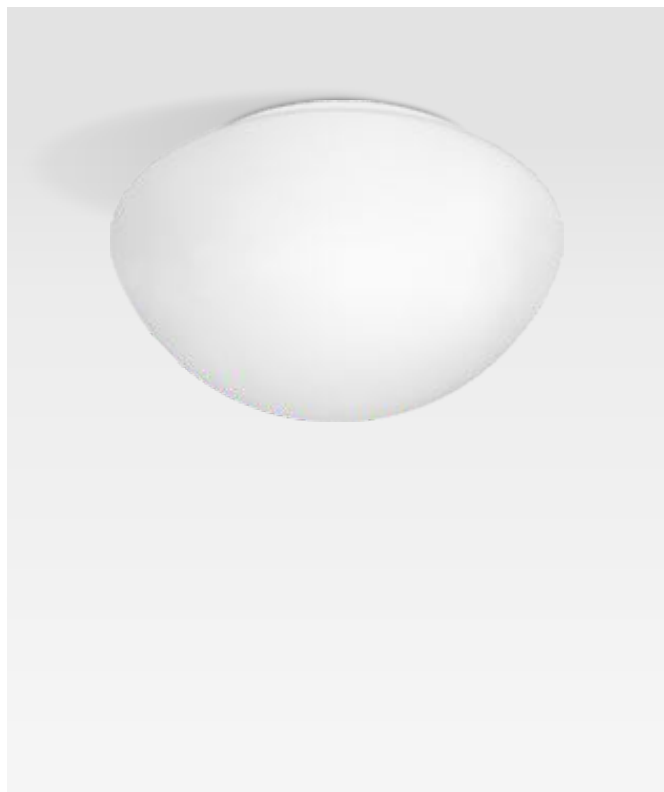

Decorative ceiling Aura line of luminaires are created from hand blown three-layer "triplex opal" Murano glass. This way the high durability and diffuser quality is achieved, along with homogenous effect which creates a high-comfort atmosphere and eye pleasing illumination. Curved shape of glass fits perfectly in all living areas and at the same time elevates the space on the next level.

Aura AP

Nadgradna LED zidna svjetiljka / Wall mounted LED lamp

Kućište: čelični lim obojan termoeпокsidnom finostrukturnom bijelom bojom

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: Dulux D/E i T/E žarulje, E27 ECO

Difuzor: protublješteće opalno satinirano troslojno triplex Murano staklo homogenog efekta

Montaža: pomoću vijaka na zid

Spajanje: skidanjem difuzora dostupne su priključne stezaljke i ostale električne komponente

Housing: steel sheet-metal covered with thermal epoxy finely-textured white colour

Power: 230V/50Hz

Supply unit: built in the housing

Light source: Dulux D/E and T/E bulbs, E27 ECO

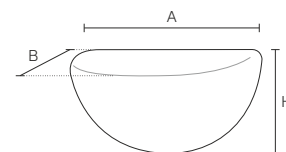

Diffuser: glare-free opal satinated three-layer triplex Murano glass with homogenous effect

Mounting: with screws to the wall

Connecting: through removing the diffuser, connection clamps and all other electronic components are available

Circolina

Dekorativna svjetiljka iz samogasivog polikarbonata
Dolazi u stropnoj kružnoj izvedbi a zahvaljujući homogenom efektu opalnog polikarbonata, svjetlost je mekana, oku ugodna i opuštajuća.
Circolina svjetiljke svojim su dizajnom idealne za kreativnu dekoraciju prostora.

*Decorative luminaire made from self-extinguishing polycarbonate.
It comes in circular design for ceilings and thanks to the homogenic effect of opal polycarbonate, the light is mellow, eye pleasing and relaxing.
Circolina luminaire is ideal for creative decoration of space.*

NAMJENA / USAGE

Circolina

Nadgradna svjetiljka / Surface mounted lamp

Kućište: samogasivi polikarbonat

Standardna fino strukturna boja: bijela

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: E27, Dulux D/E i T/E žarulje, T9 cijevi

Difuzor: protublješteća polikarbonatna kapa homogenog efekta

Montaža: pomoću vijaka na strop

Spajanje: skidanjem difuzora dostupne su priključne stezaljke i ostale električne komponente

Housing: self-extinguishing polycarbonate

Standard color: white

Power: 230V/50Hz

Supply unit: built in the housing

Light source: E27, Dulux D/E and T/E bulbs, T9 tubes

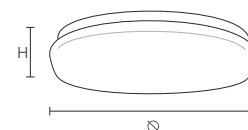

Diffuser: anti-glare opal polycarbonate with homogenous effect

Mounting: with screws to the ceiling

Connecting: through removing the diffuser, connection clamps and all other electronic components are available

Line

Arhitektura i rasvjeta izražavaju kvalitetu kako našeg životnog prostora tako i naš radni okoliš. U prostoru gdje se dešavaju neprestane promjene, visoka dinamika, statični koncepti unutrašnje opreme i rasvjete nisu usklađeni. Traže se promjene, fleksibilnost i dinamika što se odnosi i na rasvjetu, koja će poštivati različite namjene upotrebe i usklađenje sa dnevnim svjetlom.

LINE nudi sistem rasvjete koji idealno ispunjava zahtjeve po različitoj strukturi rasvjete. Kombinacijom direktne i/ili indirektna rasvjete omogućuje se isceniranje svjetlosti u kancelarijskim prostorima, konferencijskim dvoranama, auto salonima, muzejima, galerijama, trgovačkim centrima.

Architecture and illumination express the quality of our living environment as well as our working space.

In an environment where constant changes are happening with high dynamic, static concept of interior illumination and equipment aren't harmonized. Changes are needed, flexibility and dynamic, which applies onto illumination as well.

LINE offers lighting system which ideally fulfills the needs of specific environment.

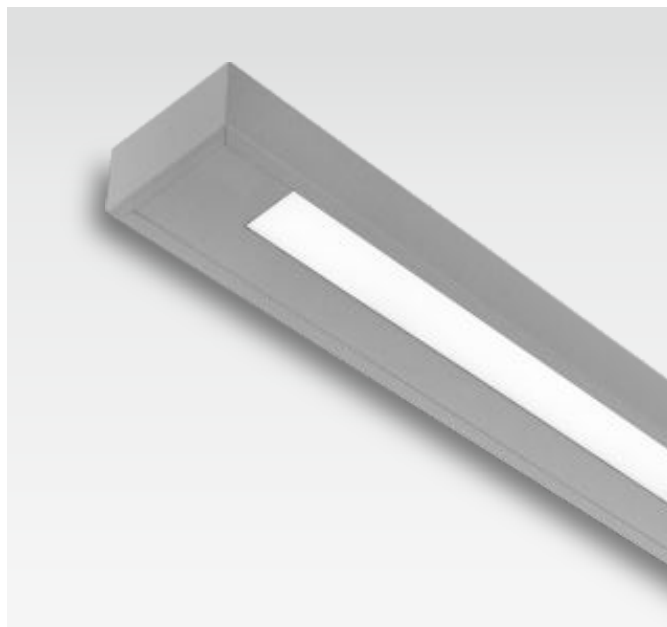

By combining direct and/or indirect illumination, light planning for various offices, conference spaces, halls, saloons, museums, shopping centers becomes not only possible but desirable.

Tiss

Inspiracija svjetlošću i prirodom je neiscrpna i uvijek iznova očaravajuća. I svjetlost i priroda ulaze u sve pore našeg postojanja, grade naše živote, utječu na naše raspoloženje i stanja, reguliraju naš biološki sat. Stoga ne čudi vječna zainteresiranost čovjeka da ih istraži, dokuči, obuzda.

Svjetiljka Tiss slavi prirodu i njezine plodove - sazdana je od prirodnog masivnog drva i njegovana prirodnim voskom. Tiss slavi i posvećenost radu - svoj karakteristični, cilindrični oblik duguje tradicionalnoj podrumarskoj opremi, konkretnije preši za grožđe. Igra svjetla i sjene koju stvara Tiss, prolaskom svjetlosti kroz okomite letvice sjenila daje poseban karakter prostoriji u kojoj se nalazi.

Inspiration with light and nature is inexhaustible and always fascinating. Both the light and the nature are included in all aspects of our existence, build our lives, affect our moods and states, regulate our biological clock. It is therefore not surprising eternal interest of man to explore them, comprehend, curb.

Tiss celebrates nature and it's fruits - composed of natural solid wood and cherished with natural wax. Tiss celebrates work and dedication as well - it's characteristic cylindrical chape invokes traditional cellar equipment, specifically a wine press. The play of light and shadows, created by Tiss, passing through the vertical blinds slats, gives special character and mood to the room it inhabits.

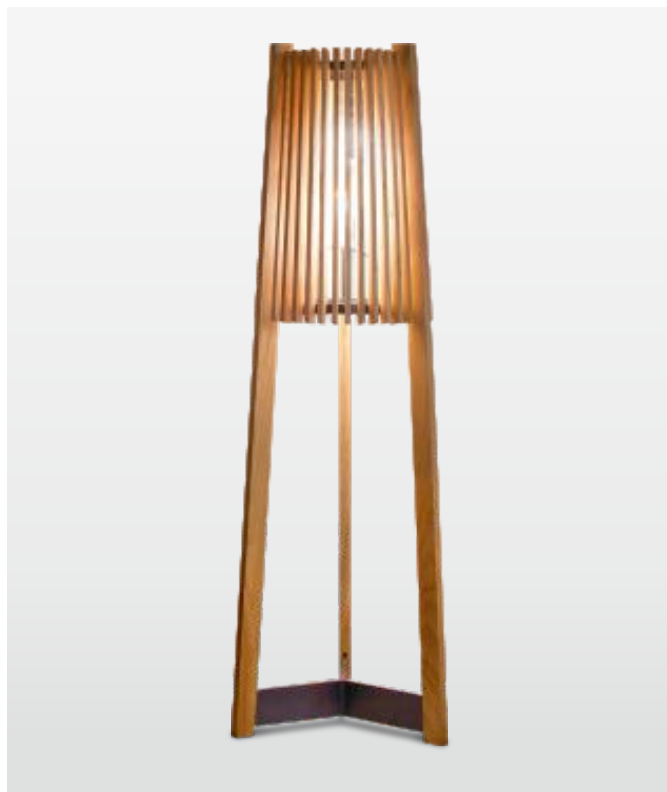

NAMJENA / USAGE

Tiss

Dekorativna drvena svjetiljka / *Decorative wooden lamp*

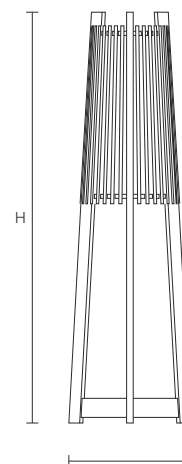

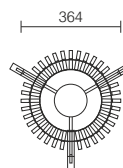

Kućište: od prirodnog masivnog drva jasena
Standardna: prirodno drvo polirano biljnim lakom
Napajanje: 230V/50Hz
Izvor svjetla: E27 ECO žarulje
Spajanje: na priključni kabel
Prema zahtjevu: zaštitni transparentni polikarbonat

Housing: from natural solid ashen wood
Standard color: natural wood polished with vegetable lacquer oil
Power: 230V/50Hz
Diffuser: from protective transparent polycarbonate
Light source: E27 ECO bulbs
Connecting: to connecting cable

Punta

Dekorativna svjetiljka Punta zidne, stolne i podne varijante.
Detalji svjetiljaka pomno su isplanirani, od kromiranog nosača visoko sjajne kvalitete do sjenila od kaširanog platna koje nježno omekšava i raspršuje svjetlost ostavljajući ugodan i topao ambijent.
Idealne su za hotelske i stambene interijere te svojom nenametljivošću savršeno nadopunjavaju prostore.

*Decorative lamp Punta comes in table, floor and wall mounted version.
Every detail is cleverly planned, from chromed stand of high gloss quality to laminated shadow which gently softens light leaving behind warm and pleasant ambience.
Ideal for tourism and living interiors and with their unassuming presence they fit perfectly in every space.*

NAMJENA / USAGE

Punta wall

Zidna svjetiljka / Wall mounted lamp

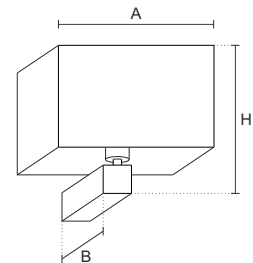

Kućište: kromirani nosač iz visoko sjajnog mesinga
Standardna boja: visoko-sjajni kromirani nosač, smeđe UV sjenilo
Napajanje: 230V/50Hz
Izvor svjetla: E27 ECO
Sjenilo: kaširano platno
Montaža: pričvršćenje na zid

Housing: chromed carrier made from highly polished brass
Standard color: high gloss chrome carrier, brown UV shadow
Power: 230V/50Hz
Light source: E27 ECO
Shade: laminated canvas
Mounting: wall mounting

Flame

Flame reflektor je nastao iz želje da se osmisli jedno rasvjetno tijelo sa velikim stupnjem prilagođavanja.

Da li na traci, zidu ili stropu, Flame linija rasvjetnih tijela savršeno se stapa u prostor te naglašava željene zone u prostoru, a izborom šireg ili užeg svjetlosnog snopa ali i mogućnošću usmjeravanja samog tijela, površina i pozicija osvijetljene zone može se kontrolirati.

Kućište reflektora je iz aluminijskog obojenog termoeпокsidnom bojom a izvor svjetlosti je zaštićen zaštitnim polikarbonatom otpornim na temperaturu i udarce.

Flame reflector was created from a need to design one luminaire with great degree of customization.

On track, wall or ceiling, Flame line of luminaires blends seamlessly in space and accentuates the desired zones and with the possibility of choosing wide or narrow light beam as well as orienting the body, the illuminated surface and it's position can be controlled.

The housing of the reflector is made from aluminium coated with thermal epoxy colour and the light source is protected with polycarbonate resistant to temperature and strikes.

Flash

Vrhunske ugradne svjetiljke visoke kvalitete i elegantnih linija. Osmišljene kao svjetiljke za slaganje u niz i isticanje arhitektonskih značajki prostora. Zbog svog izgleda idealne su za razne studijske prostore ali i trgovine i stambene prostore. Veliki izbor izvedba i boja ali jednostavne montaže pruža Flash liniji svjetiljki veliku prednost nad konvencionalnim rasvjetnim tijelima.

Superior recessed downlight luminaire of high quality and elegant lines. Designed as a luminaire for stacking in series and accentuating architectural elements of space.

Due to its design they are ideal for various studio spaces and shopping interiors.

Great selection of types and colours as well as easy mounting gives Flash line of luminaires great advantage over more conventional luminaires.

Kućište: čelični lim obojen termoeпокsidnom finostrukturnom bojom

Standardna fino strukturna boja: bijela, siva, crna

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: halogene žarulje GU10 i GU5,3, LED najnovije generacije, MacAdam 4 CRI>80; LED min 50.000h L80F50 na Tp=75°C; EEI A

Montaža: pričvršćenje u strop pomoću opruga

Spajanje: skidanjem kućišta dostupne su priključne stezaljke i ostale električne komponente

Housing: steel sheet-metal covered with thermal epoxy finely textured colour

Standard finely textured color: white, gray, black

Power: 230V/50Hz

Supply unit: built into housing

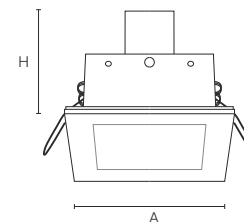

Light source: halogen bulbs GU10 and GU5,3, LED newest generation, MacAdam 4 CRI>80; LED min 50.000h L80F50 on Tp=75°C. EEI A

Mounting: mounting in ceiling with springs

Connecting: through removing the housing, connection clamps and all other electronic components are available

Quadric

Vrhunske ugradne svjetiljke visoke kvalitete i čvrstoće.
Protublješteći opalni polikarbonatni difuzor homogenog efekta oplemenjuje svjetiljku svojim visokim stupnjem uniformiranosti svjetlosnog toka tehnologije "crystal ice".
Idealne kako za unutarnju tako i za vanjsku upotrebu a otporne su na sve vremenske uvjete

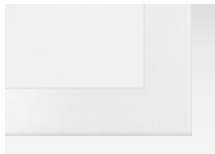

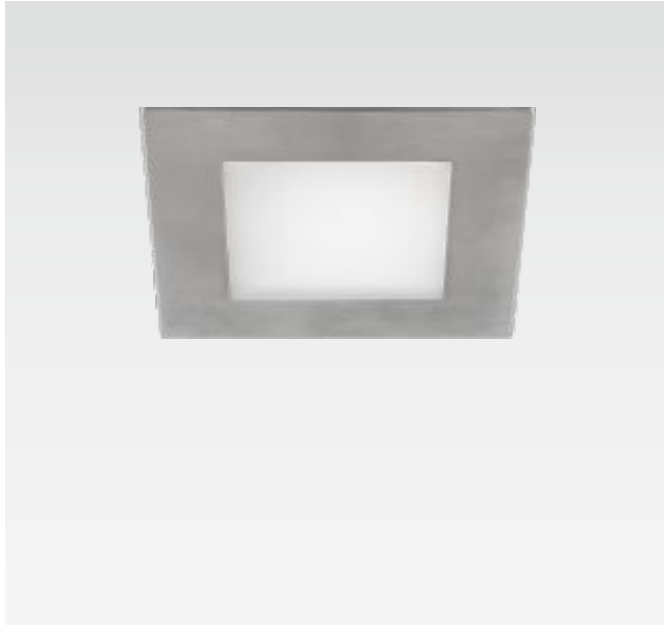

*Superior recessed downlight luminaire of high quality.
Opal polycarbonate diffuser with soft effect enriches the lamp with it's uniform luminous flux made possible by "crystal ice" technology. Quadric luminaires are ideal for interior and exterior use and are resistant to all weather conditions*

Kućište: dekorativni prsten izrađen iz prešanog aluminija obojenog termoeпокsidnom bojom

Standardna fino strukturna boja: bijela, siva, crna

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: LED najnovije generacije koji omogućuju visoku efikasnost i učinkovitost CRI>80; životni vijek LED izvora min 50.000h L70B10 na Tp=65°C; klasa energetske učinkovitosti A+

Montaža: pomoću opruga u otvor

Prema zahtjevu: regulacijska jedinica DALI, DIM (pogledati upute za naručivanje str. 180)

Housing: decorative ring made from pressed aluminium covered with thermal epoxy color

Standard finely structured color: white, gray, black

Power: 230V/50Hz

Supply unit: built in the housing

Light source: LED latest generation with asymmetric flood optics that allow high efficiency and effectivity (symmetric on request) CRI>80. Lifetime of LED's 50.000h L70B10 on Tp=65°C. Energy efficiency class A+

Mounting: with springs into opening

On request: regulation unit DALI, DIM (see ordering instructions on pg. 180)

Ecos

Ugradne spotlight svjetiljke Ecos sa kućištem iz ljevanog aluminija obojenog termoepoksidnom bojom idealne su za ugradnju u različite stambene prostore a odlikuje ih visoka IP zaštita koja omogućava rad lampe i u najtežim uvjetima.

Diffuzor od protublješćeg opalnog polikarbonata homogenog efekta omekšava i jednakomjerno raspršuje svjetlost a montaža same svjetiljke je jednostavna zahvaljujući montažnim oprugama.

Recessed spotlight luminaires Ecos with housing made from die cast aluminium body, covered with thermal epoxy color are ideal for usage in various living areas and are characterized by high IP protection rating which allows the luminaire to function in even the harshest environments. Anti-glare opal diffuser with homogenous effect "Crystal Ice" softens and evenly spreads the light and the mounting of the luminaire with springs has never been easier

NAMJENA / USAGE

Arca

Arca linija proizvoda dizajnirana je kako bi se stopila sa stropom te nakon ugradnje nema vidljivog ruba, istovremeno svojim minimalističkim oblikom nenametljivo krasi prostor te obasjava visokom svjetlosnom efikasnošću. Veliki izbor dimenzija i oblika čini ovu seriju svjetiljaka idealnom za naglašavanje karakteristika prostora.

Arca line of products is designed to merge with ceiling and after instalation there is no visible edge, at the same time this luminaire with it's minimalistic shape unobtrusively enriches space with high effciciency illumination. Various dimensions and shapes to choose from makes this luminaire ideal for accentuatingthe chosen room characteristics.

NAMJENA / USAGE

Arca square

Ugradna svjetiljka bez vidljivog ruba / *Recessed trimless lamp*

Kućište: čelični lim obojan termoeпокsidnom finostrukturnom bijelom bojom
Električne komponente: odvojene napojne jedinice (napojne jedinice u kompletu)

Izvor svjetla: Dulux T/E, T5 žarulje i LED generacije 3, self-cooling, MacAdam 3 CRI>80; LED min 60.000h L80F50 na $T_p=65^{\circ}\text{C}$; EEI A++

Difuzor: protubljesteći opalni homogenog efekta "Crystal ice"

Montaža: pričvršćenje u gips uz pomoć vijaka (pribor za montažu u kompletu), te gletanjem sa strukturom stropa

Spajanje: skidanjem difuzora dostupne su priključne stezaljke i ostale električne komponente

Prema zahtjevu: panik, reg. jedinica DALI, DIM (vidi upute za naručivanje str. 180)

Housing: steel sheet-metal covered with thermal epoxy finely-textured white color

Supply unit: separate supply units (supply units included)

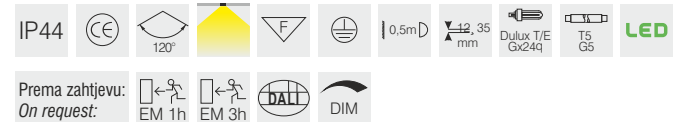

Light source: Dulux T/E, T5 bulbs & LED generation 3, self-cooling; MacAdam 3 CRI>80; LED min 60.000h L80F50 on $T_p=65^{\circ}\text{C}$. EEI A++

Diffuser: anti-glare opal with homogenous effect "Crystal ice"

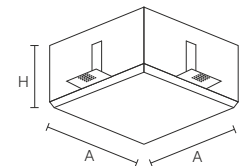

Mounting: with holders for plaster (installation tool in set), smoothing the plaster

Connecting: through removing the diffuser, connection clamps and all other electronic components are available

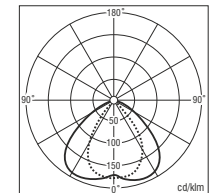

On request: emergency light, reg. unit DALI, DIM (see ordering instructions on pg. 180)

ARCA ROUND UP
art. 3322218

Plain

Elegancija, jednostavan dizajn i sloboda kreiranja svjetlosti, odlika su i najznačajnije karakteristike svjetiljki Plain, bez obzira na ugradnu, nadgradnu ili viseću verziju.

Kućište iz ekstrudiranog, anodiziranog aluminijskog profila sa opalnim polikarbonatnim difuzorom. Elegantnog i jednostavnog dizajna PLAIN rasvjetna tijela oplemenjuju stambene, poslovne, hotelske i ostale prostore.

Elegance, easy design and lighting creating freedom are the best significant of Plain lighting armatures, irrespective if they are integrated, recessed or suspended version.

The body is made of extruded aluminium profile with anodised finishing, complete with opal polycarbonate diffuser. With elegance and simple desing PLAIN luminaires enrich living spaces, offices and hotels.

NAMJENA / USAGE

Plain

Nadgradna/viseća svjetiljka sa difuzorom • *Surface/suspended lamp with diffuser*

BIJELA/WHITE (W)

ANODIZED AL. (A)

CRNA/BLACK (B)

Kućište: ekstrudirani aluminijski profil

Standardna boja: bijela, anodizirani aluminij, crna finostrukturna

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: Fluo T5 cijev

Difuzor: protublješteći opalni polikarbonat homogenog efekta tehnologije "Crystal Ice"

Montaža: vijcima na strop / vješanje na čelične visilice

Spajanje: skidanjem difuzora dostupne su priključne stezaljke i ostale električne komponente

Prema zahtjevu: regulacijska jedinica DALI, DIM - samo u visećoj varijanti (vidi upute za naručivanje str. 180)

Housing: extruded aluminium profile

Standard color: white, anodized aluminium, black finely textured

Power: 230V/50Hz

Supply unit: built in the housing

Light source: fluo T5 tube 20,000h

Diffuser: anti-glare opal diffuser with homogenous effect "Crystal Ice"

Mounting: with screws to the ceiling / hanging on steel suspension wires

Connecting: by demounting the diffuser, connection clamps and all other electronic components are available

On request: regulation unit DALI, DIM - only for suspended version (see ordering instructions on pg. 180)

Prema zahtjevu:
On request: DALI, DIM

Nadgradna/viseća LED svjetiljka sa difuzorom / Surface/suspended LED lamp with diffuser

BIJELA/WHITE (W)

ANODIZED AL. (A)

CRNA/BLACK (B)

Kućište: ekstrudirani aluminijski profil

Standardna boja: bijela, anodizirani aluminij, crna finostrukturna

Napajanje: 230V/50Hz

Električne komponente: ugrađene u/na kućište

Izvor svjetla: LED najnovije generacije, MacAdam 3 CRI>80; LED min 60.000h L80F50 na $T_p=65^\circ\text{C}$; EEL A++

Difuzor: protubliješćeci opalni polikarbonat homogenog efekta tehnologije "Crystal Ice"

Montaža: vijcima na strop / vješanje na čelične visilice

Spajanje: demontažom difuzora dostupne su priključne stezaljke

Prema zahtjevu: regulacijska jedinica DALI, DIM - samo u visećoj varijanti (vidi upute za naručivanje str. 180)

Housing: extruded aluminium profile

Standard color: white, anodized aluminium, black finely textured

Power: 230V/50Hz

Supply unit: built in/on the housing

Light source: LED newest generation, MacAdam 3 CRI>80; LED min 60.000h L80F50 on $T_p=65^\circ\text{C}$. EEL A++

Diffuser: anti-glare opal diffuser with homogenous effect "Crystal Ice"

Mounting: with screws to the ceiling / hanging on steel suspension wires

Connecting: through demounting the diffuser, connection clamps are available

On request: regulation unit DALI, DIM - only for suspended version (see ordering instructions on pg. 180)

LS 50

Arhitektura i rasvjeta izražavaju kvalitetu kako našeg životnog prostora tako i naš radni okoliš.

U prostoru gdje se dešavaju neprestane promjene, visoka dinamika, statični koncepti unutrašnje opreme i rasvjete nisu usklađeni. Traže se promjene, fleksibilnost i dinamika što se odnosi i na rasvjetu, koja će poštivati različite namjene upotrebe i usklađenje sa dnevnim svjetlom. LS 50 nudi sistem rasvjete koji idealno ispunjava i najzahtjevnije prostorne karakteristike

Architecture and lighting express the quality of both our living space and working environment.

In an interior where constant changes take place, high dynamics and static concepts of interior equipment and lighting are not in harmony. Changes, flexibility and dynamics are wanted and that is relate to the lighting, which should respect different uses and harmony with daylight. LS 50 offers a lighting system that perfectly meets even the most demanding interior characteristics

 Str. 133

Side

Seriya svjetiljaka Side osmišljena je kako bi se svojim dizajnom i izgledom uklapala u sve moderne i arhitektonski minimalistički dizajnirane interijere ali isto tako i u zahtjevnije i bogatije prostore. To se postiže velikom prilagodljivošću samog izgleda svjetiljke, njezine dužine, tipa ali i vrlo specifičnog i dizajnerski neutralnog "rigiranog" profila.

Svjetiljke dolaze u standardnoj fluo i LED izvedbi a montaža je izuzetno jednostavna kod nadgradne ali i viseće izvedbe.

Side luminaire line is conceived to complement every modern and architecturally minimalistic interior and at the same time designed to complement more demanding and rich interiors.

This is achieved with great customizability of the luminaire, it's length, type and very specific and neutrally designed "rigged" profile.

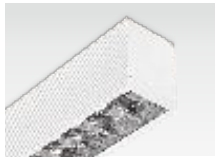

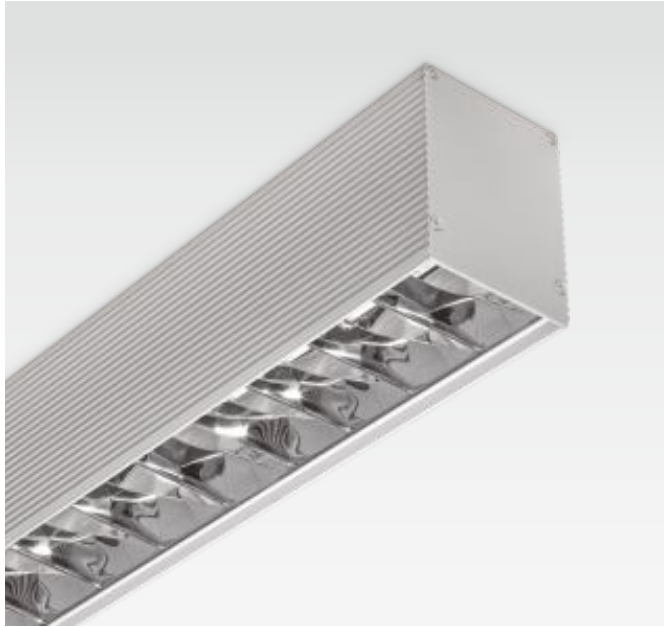

Luminaires are available in standard fluo and LED variant and the mounting is very simple in surface mounted variant as well as in pendant variant.

NAMJENA / USAGE

AF

AF profilna aluminijska asimetrična svjetiljka za zidnu i stropnu montažu sa fluorescentnim ili fluokompaktnim izvorima svjetlosti u stupnju zaštite IP55. Sa mogućnošću aplikacije prekidača, utičnica IP55 omogućuje nesmetanu ugradnju u vlažne prostore kao što su sanitarni prostori, kuhinje...

AF profile aluminum asymmetric fixture for wall and ceiling mounting with fluorescent or fluocompact light sources in protection degree IP55. With the possibility of applying switches and IP55 sockets, installation in wet areas is enabled, such as bathrooms, kitchens...

NAMJENA / USAGE

Nadgradna/zidna svjetiljka / Surface/wall mounted lamp

Kućište: ekstrudirani aluminijski profil

Standardna fino strukturna boja: bijela

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: fluo T5 i T8 cijevi

Odasiyač: reflektor iz 99,9% metaliziranog aluminija

Difuzor: zaštitni polikarbonatni prizmatični difuzor protiv blještanja

Montaža: pomoću vijaka na strop/zid

Spajanje: skidanjem difuzora i odasiyača dostupne su priključne stezaljke i ostale električne komponente

Prema zahtjevu: panik, DALI, DIM (vidi upute za naručivanje str. 180)

Housing: extruded aluminium profile

Standard finely textured color: white

Power: 230V/50Hz

Supply unit: built in the housing

Light source: fluo T5 and T8 tubes

Reflector: reflector from 99,9% metallized aluminium

Diffuser: protective polycarbonate prismatic diffuser

Mounting: with screws to the ceiling/wall

Connecting: through removing the reflector and diffuser, connection clamps and all other electronic components are available

On request: emergency light, DALI, DIM (see ordering instructions on pg. 180)

Prema zahtjevu:

NAMJENA / USAGE

Storm

Nadgradna LED svjetiljka / Surface mounted LED lamp

Kućište: ekstrudirani aluminijski profil
Standardna boja: anodizirani aluminij
Električne komponente: odvojene napojne jedinice, naručuju se zasebno str. 176
Izvor svjetla: LED SMD tehnologije
Difuzor: od satiniranog protubljajećeg polikarbonata homogenog efekta
Montaža: pomoću "klik" nosača
Spajanje: na priključni kabel, kojeg je na osnovu zahtjeva moguće pozicionirati na početku ili kraju profila
Prema zahtjevu: regulacijska jedinica DALI, DIM, RGB DMX upravljanje (vidi upute za naručivanje str. 180)

Housing: extruded aluminium profile
Standard color: anodized aluminium
Supply unit: separated power supplies, ordered separately pg. 176
Light source: LED with SMD technology
Diffuser: from satinated, anti-glare polycarbonate with homogenous effect
Mounting: with "clip on" carrier
Connecting: on the connection cable which one can be positioned on to beginning or ending of the profile, based on request
On request: regulation unit DALI, DIM, RGB DMX (see ordering instructions on pg. 180)

Lite led

Ugradne spotlight svjetiljke izuzetne čvrstoće sa kućištem iz ljevanog aluminija obojenog termoeпокsidnom bojom idealne su za vanjsku upotrebu te sve vremenske uvjete.

LED izvor svjetlosti zaštićen je transparentnim polikarbonatom velike čvrstoće i izdržljivosti a montaža svjetiljke je moguća u gips ili u betonski zid pomoću kutije za montažu

Recessed spotlight luminaires of great durability with housing made from die cast aluminium body, covered with thermal epoxy color. Lite Led is ideal for exterior usage and all weather conditions. LED light source is protected with transparent polycarbonate of high durability and the mounting of the luminaire is possible in plaster or even in concrete walls thanks to a special box for concrete mounting.

NAMJENA / USAGE

Lite led maxi

Ugradna LED svjetiljka / Recessed LED lamp

Kućište: lijevani aluminij obojen termoeпокsidnom bojom namijenjenom za vanjske uvjete

Standardna finostrukturna boja: bijela, siva, crna

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: LED

Difuzor: zaštitni transparentni polikarbonat

Montaža: u gipsani zid ili u kutiju za montažu u betonskom zidu

Spajanje: na priključni kabel

Housing: die-cast aluminium covered with thermal epoxy colour approved for external weather conditions

Standard finely structured color: white, gray, black

Power: 230V/50Hz

Supply unit: built in the housing

Diffuser: from protective transparent polycarbonate

Light source: LED

Mounting: into plaster wall or into mountage box for concrete walls

Connecting: to connecting cable

Led Line F

Ugradna podna lampa izrazite čvrstoće i otporna na sve vremenske uvjete.

Satinirano kaljeno staklo debljine 19mm tonirano je u zelenim tonovima te daje oku ugodan odsjaj a istovremeno je otporno na ogrebotine, udarce i velike pritiske, te se savršeno uklapa u sve vanjske prostore kojima je potrebna svjetlosna komponenta.

Recessed floor luminaire of exceptional hardness and resistant to all weather conditions.

Sattinated tempered glass with 19mm thickness is tinted green and emmits eye pleasing illumination, resistant to scratches, blows and great pressures and at the same time it complements perfectly all exterior spaces in need for illumination component.

NAMJENA / USAGE

Led line F

Ugradna podna svjetiljka / Recessed floor lamp

Kućište: od inoxa 316L

Napajanje: 24V

Električne komponente: odvojene napojne jedinice (napojne jedinice u kompletu)

Izvor svjetla: LED SMD tehnologije

Difuzor: satinirano kaljeno staklo debljine 19mm

Montaža: ugradnja u kutiju za montažu

Spajanje: izvan svjetiljke na konektore u IP zaštiti

Prema zahtjevu: regulacijska jedinica DIM
(vidi upute za naručivanje str. 180)

Housing: inox 316L

Power: 24V

Supply unit: separate supply units (supply units included)

Light source: LED with SMD technology

Diffuser: satinated tempered glass with 19mm thickness

Mounting: inserting in mounting box

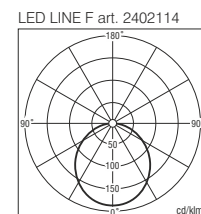

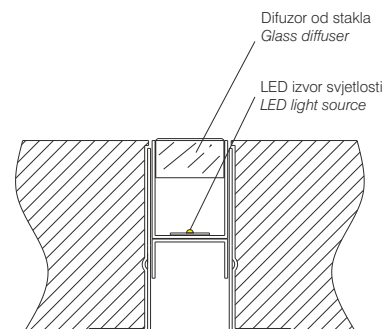

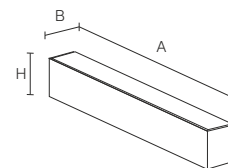

Connecting: outside the lamp on IP protected connectors

On request: regulation unit DIM (see ordering instructions pg. 180)

Izvor svjetla: LED

Difuzor: zaštitni transparentni polikarbonat

Montaža: pomoću anker vijaka i temeljne toplocinčane metalne ploče

Spajanje: na priključni kabel

Housing: from rust resistant inox 316L

Standard finely structured color: gray, black

Power: 230V/50Hz

Supply unit: built in the housing

Diffuser: from protective transparent polycarbonate

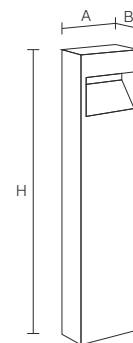

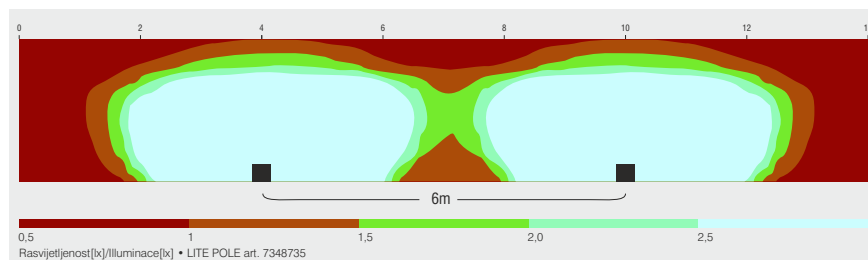

Light source: LED

Mounting: using anchor screws and fundamental galvanized metal sheet

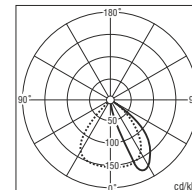

Connecting: to connecting cable

STATE

URBAN LIGHTING

Rasvjetni stup visoke kvalitete izrađen od ekstrudiranog aluminijskog profila velike čvrstoće. Osmišljen kao idealno rješenje za rasvjetu prometnica svih vrsta, šetnica, parkova i ostalih prostora gdje je potrebna vanjska rasvjeta te se svojim minimalističkim dizajnom uklapa u svako okruženje. Stup je dizajniran da radi u svim vremenskim uvjetima te je izuzetno otporan na temperaturne varijacije od -40°C do $+55^{\circ}\text{C}$.

High quality light pole made of high strength extruded aluminum profile. It is designed as an ideal solution for the illumination of all types of roads, walkways, parks and other areas needing outdoor lighting and with its minimalist design fits into any environment. Column is designed to work in all weather conditions and is highly resistant to temperature variations from -40°C to $+55^{\circ}\text{C}$.

NAMJENA / USAGE

State wall

Zidni aluminijski rasvjetni LED stup / Wall mounted aluminium LED light pole

Kućište: ekstrudirani aluminijski profil 100x100mm

Standardna boja: siva RAL 9006

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: LED najnovije generacije s asimetričnom širokosopnom optikom koji omogućuju visoku efikasnost i učinkovitost (simetrična po zahtjevu art. 426). Životni vijek LED izvora min 60.000h L80F50 na Tp 65°C EEI A++

Montaža: pomoću vijaka na zid s dodatnim nosačem

Spajanje: demontažom poklopca dostupne priključne stezaljke

Housing: extruded aluminum profile 100x100mm

Standard color: gray RAL 9006

Power: 230V/50Hz

Supply unit: built in the housing

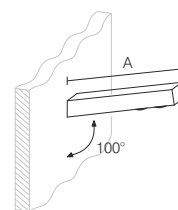

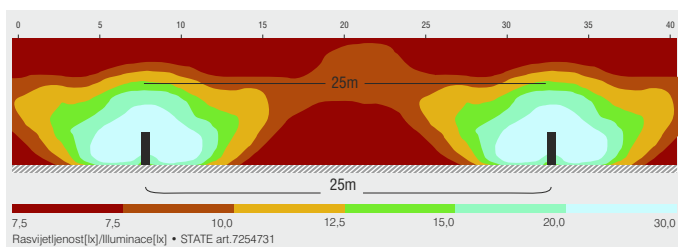

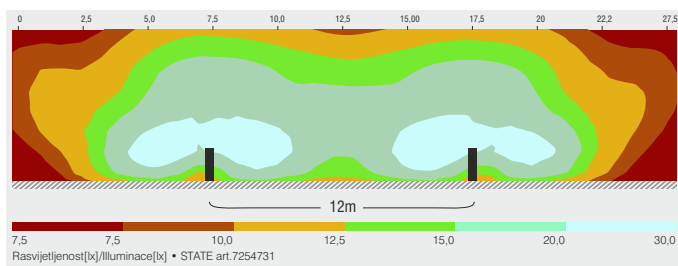

Light source: LED latest generation with asymmetric flood optics that allow high efficiency and effectivity (symmetric on request art. 426). Lifetime of LED's 60.000h L80F50 on Tp 65°C

Mounting: with screws to the wall with additional carrier

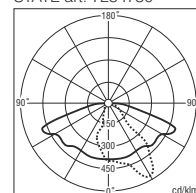

Connecting: through removing protective cover, connection clamps are available

State mini

Aluminijski rasvjetni LED stup / Aluminium LED light pole

Kućište: ekstrudirani aluminijski profil 100x100mm, nosiva konstrukcija ojačana željeznom strukturom

Standardna boja: siva RAL 9006

Napajanje: 230V/50Hz

Električne komponente: ugrađene u kućište

Izvor svjetla: LED najnovije generacije s asimetričnom širokosnopnom optikom koji omogućuju visoku efikasnost i učinkovitost (simetrična po zahtjevu art. 426). Životni vijek LED izvora min 60.000h L80F50 na Tp 65°C EEI A++

Montaža: pomoću anker vijaka i temeljne toplocinčane metalne ploče

Spajanje: demontažom poklopca dostupne priključne stezaljke

Housing: extruded aluminum profile 100x100mm, columns are reinforced with steel structure

Standard color: gray RAL 9006

Power: 230V/50Hz

Supply unit: built in the housing

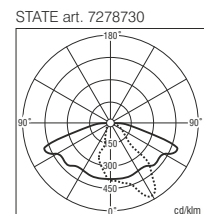

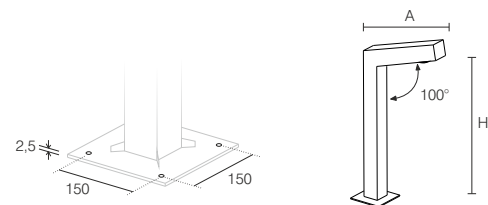

Light source: LED latest generation with asymmetric flood optics that allow high efficiency and effectivity (symmetric on request art. 426). Lifetime of LED's 60.000h L80F50 on Tp 65°C

Sistem upravljanja svjetlom *Light management sistem*

Profesionalno rješenje za zahtjevnije projekte i zahtjeve najvišeg nivoa profesionalnosti, gdje se iziskuje maksimalni nivo komfora korisnika. Mogućnost programiranja 16 neovisnih fleksibilnih rasvjetnih grupa, 15 neovisnih rasvjetnih scena, mogućnost prilagođavanja nivoa komfora prema zahtjevu korisnika. Bežična tehnologija znatno olakšava montažu i korištenje kompletnog DALI sistema

Lighting management system for demanding lighting solutions where user comfort is highly considerable: 16 flexible lighting groups, 15 individually adjustable lighting scenes, various user interface options, radio technology simplifies installation of the user interfaces.

Stupnjevi zaštite

Protection levels

IP zaštita (Ingress Protection) označava otpornost svjetiljke na krute i tekuće tvari.

1. znamenka određuje stupanj zaštite od krutih mehaničkih tijela i prašine
2. znamenka određuje stupanj zaštite od štetnog djelovanja tekućine

IP40	zaštita od krutih tijela <i>protection against solid objects</i>
0	nema zaštite <i>not protected</i>
1	zaštita od ulaska krutih tvari >50 mm <i>protection against solid objects >50 mm</i>
2	zaštita od ulaska krutih tvari >12,5 mm <i>protection against solid objects >12,5 mm</i>
3	zaštita od ulaska krutih tvari >2,5 mm <i>protection against solid objects >2,5 mm</i>
4	zaštita od ulaska krutih tvari >1 mm <i>protection against solid objects >1 mm</i>
5	zaštita od prašine <i>dust protected</i>
6	potpuna zaštita od prašine <i>dust tight</i>

IP protection (Ingress Protection) classifies and rates the degree of protection against intrusion, dust and water

- 1st digit indicates the level of protection against ingress of solid objects
2nd digit indicates the level of protection against harmful ingress of water

IP40	zaštita od tekućine <i>protection against liquids</i>
0	nema zaštite <i>not protected</i>
1	zaštita od kapanja vode <i>protection against dripping water</i>
2	zaštita od kapanja vode pod kutem 15° <i>protection against dripping water tilted to 15°</i>
3	zaštita od prskanja vode pod kutem do 60° <i>protection against spraying water tilted to 60°</i>
4	zaštita od prskanja vode <i>protection against spraying water</i>
5	zaštita od mlaza vode <i>protection against water jets</i>
6	zaštita od jakog mlaza vode <i>protection against powerful water jets</i>
7	zaštita od uronjavanja <i>protection against immersion</i>
8	zaštita od uronjavanja na dubini >1m <i>protection against immersion at >1m</i>

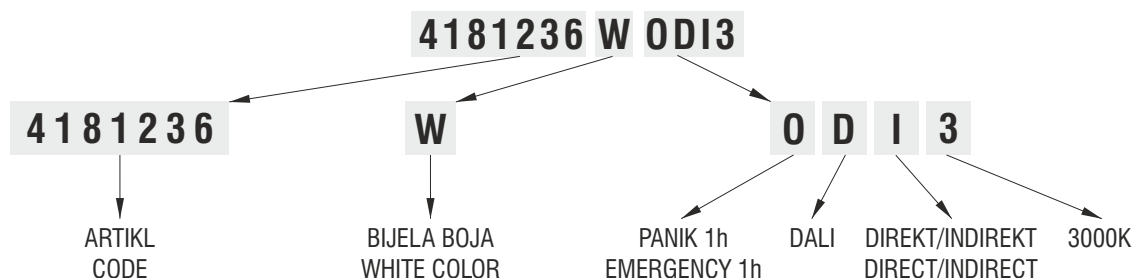

IK ocjena označava zaštitu od vanjskih mehaničkih udara. Tablica prikazuje ocjenu zaštite i energiju udara izraženu u [J].
IK rating indicates degrees of protection against external mechanical impacts. Table shows IK rating and impact energy in [J].

IK00	nema zaštite	IK06	Zaštita od udara snage 1 džula <i>Protected against 1 joules impact</i>
IK01	Zaštita od udara snage 0,14 džula <i>Protected against 0.14 joules impact</i>	IK07	Zaštita od udara snage 2 džula <i>Protected against 2 joules impact</i>
IK02	Zaštita od udara snage 0,20 džula <i>Protected against 0.20 joules impact</i>	IK08	Zaštita od udara snage 5 džula <i>Protected against 5 joules impact</i>
IK03	Zaštita od udara snage 0,35 džula <i>Protected against 0.35 joules impact</i>	IK09	Zaštita od udara snage 10 džula <i>Protected against 10 joules impact</i>
IK04	Zaštita od udara snage 0,50 džula <i>Protected against 0.50 joules impact</i>	IK10	Zaštita od udara snage 20 džula <i>Protected against 20 joules impact</i>
IK05	Zaštita od udara snage 0,70 džula <i>Protected against 0.70 joules impact</i>
